“ Dear Dr. Rosenberg,
My deepest sympathy to you and your family. It is hard to give up your mother although you know that they are in a much better place than we are. Cherish your memories. I lost my mother 3 years ago this July and I miss her just like it was yesterday but I have my memories.
I hope you will remember me. I was one of the nurses at Aston Park HCC that had been there as long as you had been coming on your rounds there. I left in 2009, after 29 years, due to health problems. I read today about your mother and I wanted to send my condolences to you and your family.
Take care,
Debbie Parham

“ Joel and Sue,
A very special person in my life has passed away.
Arline and I had a tender bond since 1958 when I went to work for your father. We remained in touch over the years until it was no longer possible for her to converse with me. She had the sweetest voice and was always eager to reminisce about the days when Dr. Rosenberg had his practice in the Windham Hospital. She referred to those remembrances as "shared memories". I have missed those conversations.
Your mother, as well as you and your families, will be in my heart forever.
Love,
Diana

“ Dear Joel and Sue, I have very fond memories of both your parents. Your Mom was the reason we originally decided to move to Mansfield, when my late husband left Yale and took over the Student Mental Health Service at UConn. Your Mom helped us in our relocation from New Haven.

I still have copies of the beautiful holiday cards your father designed each year.

The last time I saw your mother was when she was still living in Florida, and we spent a lovely day together. She was a warm and caring person, and I will always carry fond memories of her.

With my sympathy,

Sheila Amdur
