“ *Nicole and I have been friends for over 17 years and Mark didn't know anything about me but chose to take a chance and rent his above garage apartment to me. That Completely changed my life, I will forever be grateful for the kindness of his heart. After that point he always said kind and thoughtful words to Matt and I when we would post pictures or events on Facebook... to me he was a precious man and will be truly missed! Love you Nicole always and forever*

Mark and I went to school gathering from first grade to 12th. He was like a brother to me. It is so sad hearing this news about Mark. He was such a nice guy. I just saw him a few weeks ago at Walmart. He told me that he had lost his home due to Helena. He said he had a tiny home that had gotten washed away. He was there at Walmart getting some clothes. I was devastated over his news. He said that he had been in the hospital is the only reason that he was alive or he would've been washed away in the home. It weighed heavy on my mind and I had sent Mark a text asking him of all the things that he had needed other than the toaster oven that he had mentioned Mark never did respond . I had failed to get Mark's phone number to give him a call so I never heard back from him and now hearing this news is so sad but then again in heaven, you won't need all those material things Mark until we meet again, my friend, rest in eternal peace. Much love from your Flat Creek sister . I hate we never got that reunion planned.
