RO

I worked with Sandy at UNCA for almost 10 years. Her love of animals was unmatched and our time working on the Run in the Gardens always evokes fond memories. Her love of eclectic art, that she shared with Butch, was educational for me. I will truly miss her.

“ *I think it's important to remember Sandy's kindness to animals. She had a heart for dogs and bears and I'm sure all other animals and I know she will be missed by them. I went through school with Sandy and I was genuinely sad to hear she had died.*

MM

I would also add to the comments on Sandy's love of animals with her passion for plants. Sandy also organized the Run in the Gardens at UNCA. It was a lot of fun and she did a great job. We'll miss you Sandy O.

JE

*I just found out about Sandy's death. I worked with her at UNCA years ago. She really did love the animals. Sending love to the family.

SM

I just learned of Sandy's passing. I have to say my life is better having known her, she always had a smile and an upbeat attitude. Her love of animals, art and flowers were so part of her nurturing spirit. The world is a bit less vivid without her sparkle 😞
